verdict: DATA QUALITY FLAG - flagged, no value picked
source: confirmed

recon logic: start time drift -3600s
to clear: 1/3 consecutive conflicts so far - 2 more disagreeing cycles before this freezes; one clean cycle clears it back to normal right now

bus YX74OJT -> Piccadilly Gardens (final destination)

position: 53.4625, -2.2755
next stop: Altrincham Interchange (scheduled 14:40:00)
eta calc: next scheduled stop (Altrincham Interchange) is 9642m away - too far to be genuinely 'next', tracking is probably stale

field: start_time_date

live feed: 20260816 13:40:00
warehouse: expected ~14:40:00
verdict: FROZEN - MANUAL REVIEW REQUIRED
source: confirmed

recon logic: frozen at last resolved value (2 cycles in review). start time drift -3600s
to clear: frozen after 3 consecutive conflicts - clears in exactly 1 clean CONFIRMED cycle (a clean ESTIMATED cycle alone cant clear it)
